Assessment Requirements for CPCPDR2021 Locate and clear blockages

Release: 2

Assessment Requirements for CPCPDR2021 Locate and clear blockages

Modification History

- | | |
|-----------|--|
| Release 2 | This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Change to Elements and Performance Criteria 1.2 and 3.1. |
| Release 1 | This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

Supersedes and is equivalent to CPCPDR2021A Locate and clear blockages.
Updated to meet the Standards for Training Packages 2012. |

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria for this unit by:

- using a closed-circuit television (CCTV) camera to locate the cause of the blockage in drainage pipework
- using a mechanical method to clear blockage in drainage pipework.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- characteristics of different pipes and fittings.
- different types of tools and equipment, their application and method of operation:
 - manually operated drain cleaning, including plungers and rods
 - mechanically operated drain clearing machines and attachments
 - CCTV
 - pipe locating equipment
 - chemical applications for cleaning
- processes for clearing blockages
- how to access relevant drainage layout information for the job
- work health and safety (WHS) requirements for locating and clearing blockages.

Assessment Conditions

Assessors must satisfy the requirements for assessors listed in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
