Assessment Requirements for CPCPWT3028 Install property service

Release: 1

Assessment Requirements for CPCPWT3028 Install property service

Modification History

- Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
- Supersedes and is equivalent to CPCPWT3028A Install water service.
Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria for this unit by installing a property service, involving:

- determining installation requirements
- tapping into a minimum DN100 mm water main
- connecting a property service to a water meter assembly
- testing and commissioning the installation.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- water meter installation
- drilling and tapping water main
- approved property service materials
- property service installation requirements
- types of water main materials
- corrosion control
- how to access relevant information legislation, including codes and standards
- tools, materials and equipment used to install a property service
- work health and safety (WHS) requirements for installing a property service.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.
