Assessment Requirements for CPCSPS4008 Install above-ground swimming pool

Release: 1

Assessment Requirements for CPCSPS4008 Install above-ground swimming pool

Modification History

Release 1	This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0. New unit.
-----------	---

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by installing two above-ground swimming pools. The installations must involve:

- differently sized and shaped above-ground swimming pools
- the use of different prefabricated materials on each pool.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- regulations, standards and codes relevant to above-ground swimming pools and spas
- pool fencing requirements
- types and materials of pool covers
- relevant sections of the National Construction Code (NCC)
- manufacturer instructions for installing above-ground swimming pools
- properties, applications and limitations of swimming pool and spa fabrication materials, products and components
- processes, procedures and techniques for:
 - levelling pool and spa base
 - installing and assembling pools and spas
 - connecting filtration, recirculation, heating and lighting systems
- licensing and competency requirements for installing swimming pool and spa ancillary equipment
- operational and functional features of tools and equipment
- relevant sections of work health and safety (WHS) Acts and regulations
- workplace procedures and workplace safety:
 - hierarchy of control
 - hazardous manual tasks
 - temporary safety barriers and fences around pools
- workplace and environmental requirements relating to waste disposal and clean-up.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment.

Candidates must have access to:

- regulations, standards and codes relevant to above-ground swimming pools and spas
- relevant sections of the NCC
- project plans, specifications and manufacturer instructions
- workplace safety and environmental requirements.
