Assessment Requirements for CPCSPS4009 Undertake interior finishing of swimming pools and spas

Release: 1

Assessment Requirements for CPCSPS4009 Undertake interior finishing of swimming pools and spas

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.
New unit.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by applying an interior finish to two different swimming pool or spa projects.

One project must use concrete and one project must use fibreglass.

As a minimum, the finish must be applied to a corner of a pool or spa, extending one metre deep and one metre wide in all directions, including the radius on the floor of the pool.

In doing this, the candidate must:

- prepare the work area to meet safety requirements
- clean and prepare surface to key and bond interior finish
- apply material maintaining a uniform interior surface finish
- protect finished surface to maintain quality until dry.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- regulations, standards and codes relevant to interior finishing of swimming pools and spas
- swimming pool and spa project plans, specifications, standards and codes
- National Construction Code (NCC)
- properties, applications and limitations of swimming pool and spa materials, products and components used for interior finishing
- processes, procedures and techniques for:
 - measuring and installing vinyl liner to variously shaped swimming pools and spas
 - applying interior finishes to pools and spas:
 - marblesheen
 - pebblecrete
 - paint
 - fibreglass
- operational and functional features of tools and equipment

- workplace procedures and workplace safety:
 - hierarchy of control
 - temporary safety barriers and fences around pools
 - hazardous manual tasks
 - hazardous chemicals
 - falls from heights
- workplace and environmental requirements relating to waste disposal and clean-up.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment.

Candidates must have access to:

- regulations, standards and codes relevant to above-ground swimming pools and spas
- relevant sections of the NCC
- project plans, specifications and manufacturer instructions
- workplace safety and environmental requirements.
