Assessment Requirements for CPCSPS4010

Lay swimming pool and spa coping

Release: 2

Assessment Requirements for CPCSPS4010 Lay swimming pool and spa coping

Modification History

- | | |
|-----------|---|
| Release 2 | This version first released with CPC Construction, Plumbing and Services Training Package Release 5.1.

Performance Evidence corrected for clarity. |
| Release 1 | This version first released with CPC Construction, Plumbing and Services Training Package Release 5.0.

New unit. |

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by laying coping for two different swimming pool or spa projects:

- one project must have curved edges and one project must have square corners
- each project must use different types of coping.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- regulations, codes and standards relevant to swimming pool and spas
- swimming pool and spa project plans and specifications
- relevant sections of National Construction Code (NCC)
- pool fencing requirements
- properties, applications and limitations of swimming pool and spa coping materials and products:
 - poured concrete
 - brick
 - precast concrete
 - tiles
 - pavers
 - natural stone
- processes, procedures and techniques for:
 - preparing surfaces for laying of various types of coping
 - setting out different patterns for different shapes and sizes of coping
 - laying different coping types and shapes to various patterns and designs

- operational and functional features of tools and equipment
- workplace procedures and workplace safety:
 - hierarchy of control
 - temporary safety barriers and fences around pools
 - hazardous manual tasks
 - hazardous chemicals
 - falls from heights
 - exposure to silica
- workplace and environmental requirements relating to waste disposal and clean-up.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment.

Candidates must have access to:

- regulations, standards and codes relevant to swimming pools and spas
- relevant sections of the NCC
- project plans, specifications and manufacturer instructions
- workplace safety and environmental requirements.
