CPCSS00006 Apply BIM Processes to Construction Work

Release: 2

CPCSS00006 Apply BIM Processes to Construction Work

Modification History

- Release 2 Updated reference to general construction induction training program.
- Release 1 This Skill Set first released with CPC Construction, Plumbing and Services Training Package Release 6.0.

Description

This Skill Set addresses the skills and knowledge required to apply Building Information Modelling (BIM) processes when conducting construction work on a BIM project.

Completion of the general construction induction training program specified by the model Code of Practice for Construction Work is required for any person who is to carry out construction work. Achievement of *CPCWHS1001 Prepare to work safely in the construction industry* meets this requirement.

Pathways Information

Units from this Skill Set can contribute to credit towards CPC40120 Certificate IV in Building and Construction and CPC50320 Diploma of Building and Construction (Management).

Licensing/Regulatory Information

No licensing, legislative or certification requirements apply to this Skill Set at the time of publication.

Skill Set Requirements

- CPCBIM4001 Plan to comply with BIM requirements for construction work
- CPCBIM4002 Use BIM processes to carry out construction work
- CPCBIM4003 Contribute to BIM deliverables for construction work

Target Group

This Skill Set is for builders, tradespersons, project and site managers who work on projects that incorporate BIM interaction, collaboration and deliverables.

Suggested words for Statement of Attainment

These units of competency from the CPC Construction, Plumbing and Services Training Package meet industry requirements for applying Building Information Modelling (BIM) processes to construction.
