CPCSS00007 Prefabricated Concrete Element Installation General Skill Set

Release 1

CPCSS00007 Prefabricated Concrete Element Installation General Skill Set

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 9.0.

Newly created skill set.

Description

This skill set describes the skills and knowledge required to perform activities relating to the installation of prefabricated concrete elements.

Pathways Information

Completion of this skill set provides credit towards CPC30720 Certificate III in Rigging and CPC20822 Certificate II in Prefabricated Concrete Element Installation.

Licensing/Regulatory Information

Legislative, regulatory or certification requirements apply to waterproofing as a regulated design in some states and territories. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Skill Set Requirements

- CPCPRE2001 Brace and prop prefabricated concrete elements
- CPCPRE2002 Remove temporary supports from prefabricated concrete elements
- CPCPRE2003 Grout prefabricated concrete elements
- CPCPRE2004 Caulk prefabricated concrete elements
- CPCPRE3001 Patch prefabricated components of concrete elements

Target Group

This skill set is suitable for a range of trades and professionals such as labourers who are responsible for installing prefabricated concrete elements.

Suggested words for Statement of Attainment

These units from CPC Construction, Plumbing and Services Training Package meet industry requirements for individuals installing prefabricated concrete elements.
