CPCSS00010 Design Waterproofing Skill Set

Release 1

CPCSS00010 Design Waterproofing Skill Set

Modification History

Release 1 This version first released with CPC Construction, Plumbing and Services Training Package Release 9.0.
Newly created skill set.

Description

This skill set describes the skills and knowledge required to design waterproofing for planned construction to comply with relevant codes and standards.

Pathways Information

Completion of this skill set provides credit towards CPCCWP5005 – Survey Waterproofing and/or CPC50722 Diploma of Construction Waterproofing Design and Survey.

Licensing/Regulatory Information

Legislative, regulatory or certification requirements apply to waterproofing as a regulated design in some states and territories. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

Skill Set Requirements

- CPCCWP5001 Design below ground waterproofing
- CPCCWP5002 Design external above ground waterproofing
- CPCCWP5003 Design waterproofing to internal wet areas

Target Group

This skill set is suitable for a range of trades and professionals such as building designers, waterproofing design specialists, architects, and engineers who are responsible for designing waterproofing for a range of applications.

This skill set is for people currently working as, or intending to work as, waterproofing consultants and specialists for Class 1 and 10 buildings, and Class 2 to 9 buildings, as defined in the National Construction Code (NCC).

Suggested words for Statement of Attainment

These units from CPC Construction, Plumbing and Services Training Package meet industry requirements for waterproofing consultants and specialists to undertake waterproofing services for Class 1 and 10 buildings, and Class 2 to 9 buildings, as defined in the National Construction Code (NCC).
