CPCSS00001 Lead a building, construction or plumbing and services team

Release: 2

CPCSS00001 Lead a building, construction or plumbing and services team

Modification History

ISC update of formatting. No content changes.

Description

This skill set addresses the skills used by experienced tradespersons and operators who are moving into roles with additional responsibility and team leadership, typically in smaller businesses.

The skill set provides the team leadership and other skills to enable experienced site supervisors or builders to develop staff under their supervision.

Completion of the general induction training program specified by the National Code of Practice for Induction Training for Construction Work (ASCC 2007) is required before entering a construction work site. Achievement of unit CPCCOHS1001A covers this requirement.

Pathways Information

The completion of this skill set provides a pathway to a range of Certificate IV qualifications in CPC08, including credit towards the Certificate IV in Plumbing and Services.

Licensing/Regulatory Information

Not Applicable

Skill Set Requirements

CPCCBBC4002A	Manage occupational health and safety in the building and construction workplace
CPCCBBC4009B	Apply legal requirements to building and construction projects
BSBWOR402A	Promote team effectiveness

Target Group

The skill set provides the team leadership and other skills to enable experienced site supervisors or builders to develop staff under their supervision.

Suggested words for Statement of Attainment

The suggested form of words for inclusion on a Statement of Attainment is: These units from CPC08 Construction, Plumbing and Services Training Package meet industry requirements for experienced tradespersons and operators working as building, construction or plumbing and services team leaders in the construction and plumbing and services industry.
