CPPACC4015 Follow WHS requirements when working at client sites

Release: 1

CPPACC4015 Follow WHS requirements when working at client sites

Modification History

- Release 1 This unit first released with CPP Property Services Training Package Release 14.0.
- Supersedes and is equivalent to CPPACC4015A Follow site occupational health and safety requirements. Minor update to unit title to clarify outcome.
- Unit updated to meet the Standards for Training Packages 2012.

Application

This unit of competency specifies the skills and knowledge required to follow work health and safety (WHS) requirements when conducting access consulting activities at client sites. It requires identifying mandatory WHS duty of care legislation and regulations and following specific site WHS requirements.

This unit is for individuals who work independently using specialised knowledge to conduct a range of access consulting services.

No licensing, legislative or certification requirements apply to this unit at the time of publication.

Pre-requisite Unit

Nil.

Unit Sector

Access Consulting.

Elements and Performance Criteria

Elements describe the essential outcomes.	Performance criteria describe what needs to be done to demonstrate achievement of the element.
1 Identify and apply mandatory WHS duty of care legislation and regulations.	1.1 Identify and source Commonwealth and state/territory WHS legislation and regulations relevant to access consulting operations.
	1.2 Identify WHS duty of care requirements necessary to work safely in an access consulting capacity in relation to the specific client worksite.

- | | | |
|---------------------------------|-----|---|
| | 1.3 | Identify WHS duty of care requirements to be provided by the client. |
| 2 Follow site WHS requirements. | 2.1 | Discuss potential site safety requirements with relevant persons prior to commencing work at client site. |
| | 2.2 | Identify and interpret site safety signs relevant to access consulting work activities. |
| | 2.3 | Select, use and maintain required personal protective equipment (PPE) to comply with specific site WHS requirements. |
| | 2.4 | Identify emergency and evacuation procedures that apply to site visitors to ensure compliance as required. |
| | 2.5 | Identify and assess site safety risks, hazards and other requirements that impact on site-specific access consulting tasks. |
| | 2.6 | Follow site WHS requirements to manage identified safety risks and hazards. |
| | 2.7 | Conduct all access consulting work activities on site according to relevant WHS regulatory and workplace requirements. |

Foundation Skills

Foundation skills essential to performance are explicit in the performance criteria of this unit of competency.

Unit Mapping Information

Supersedes and is equivalent to CPPACC4015A Follow site occupational health and safety requirements.

Assessment Requirements for CPPACC4015 Follow WHS requirements when working at client sites

Modification History

Release 1 This unit first released with CPP Property Services Training Package Release 14.0.

Supersedes and is equivalent to CPPACC4015A Follow site occupational health and safety requirements. Minor update to unit title to clarify outcome.

Unit updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by following work health and safety (WHS) requirements while conducting access consulting activities at two different client sites.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- Commonwealth, state and territory WHS legislation, regulations, policies and procedures relevant to access consulting activities and client sites:
 - duty of care obligations
 - employer/employee responsibilities, rights and obligations relevant to WHS in the workplace
- implications of not adhering to safety requirements when working at client sites
- purpose of, and requirements to comply with site emergency and evacuation procedures
- types and purpose of, and requirements to comply with site safety signs
- types and purpose of personal protective equipment (PPE) required to be used when working at client sites:
 - hard hat
 - eye and hearing protection
 - foot protection
- workplace requirements for following WHS requirements when working at client sites:
 - client service
 - documentation, reports and records administration
 - work role boundaries – responsibilities, limitations and professional abilities.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to documentation, information, technologies and PPE required to achieve the performance criteria and performance evidence.
