Assessment Requirements for CPPACC5004 Apply building codes and standards to accessible large-scale buildings

Release: 1

Assessment Requirements for CPPACC5004 Apply building codes and standards to accessible large-scale buildings

Modification History

Release 1 This unit first released with CPP Property Services Training Package Release 14.0.

Supersedes and is equivalent to CPPACC5004A Apply building codes and standards to accessible large-scale buildings.

Unit updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by applying building codes and standards to the development of two different accessible large-scale buildings.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- Commonwealth, state and territory legislation, regulations, codes and standards relevant to access consulting activities:
 - anti-discrimination and disability discrimination
 - building control including local government regulations and by-laws
 - Disability (Access to Premises – Buildings) Standards 2010 under the Disability Discrimination Act 1992 (or their successors) – known as the Access to Premises Standards
 - National Construction Code (NCC) and primary referenced Australian Standards:
 - building classifications
 - access requirements
 - deemed-to-satisfy (DTS) provisions
 - assessment methods for performance and DTS solutions
 - National Disability Insurance Scheme (NDIS) Specialist Disability Accommodation Design Standard (or its successor)
 - Livable Housing Australia Livable Housing Design Guidelines (or its successor)
 - principles of universal design
 - privacy and confidentiality
- measurements and calculations used to determine provisions for access
- processes for interpreting construction plans, drawings and specifications when assessing classifications of buildings

- research methodologies and analytical processes used to access information to support access consulting activities
- roles, responsibilities and powers of building certifiers
- types of disability and limitations that each disability places on an individual's ability to access the environment
- workplace requirements for applying building codes and standards to accessible large-scale buildings:
 - documentation and records administration
 - quality
 - work role boundaries - responsibilities, limitations and professional abilities.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to documentation, information and technologies required to achieve the performance criteria and performance evidence.
