Assessment Requirements for CPPACC5010 Provide access advice on the design of the built environment

Release: 1

Assessment Requirements for CPPACC5010 Provide access advice on the design of the built environment

Modification History

Release 1 This unit first released with CPP Property Services Training Package Release 14.0.

Supersedes and is equivalent to CPPACC5010A Provide access advice on the design of the built environment.

Unit updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by providing access advice on the design of the built environment to meet the needs of two different clients.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- anthropometric and ergonomic principles of accessible building design and fitout
- Commonwealth, state and territory legislation, regulations, codes and standards relevant to access consulting activities:
 - anti-discrimination and disability discrimination
 - building control including local government regulations and by-laws
 - Disability (Access to Premises – Buildings) Standards 2010 under the Disability Discrimination Act 1992 (or their successors) – known as the Access to Premises Standards
 - National Construction Code (NCC) building classifications and access requirements
 - National Disability Insurance Scheme (NDIS) Specialist Disability Accommodation Design Standard (or its successor)
 - Livable Housing Australia Livable Housing Design Guidelines (or its successor)
 - principles of universal design
 - privacy and confidentiality
- functional systems of the human body
- interpersonal communication strategies used to effectively relate to people from a range of social, cultural and ethnic backgrounds and with a range of physical and cognitive abilities
- measurements and calculations used to determine access provisions
- possible solutions to situations where NCC deemed-to-satisfy (DTS) provisions do not provide appropriate access

- principles of design relating to accessible buildings and fitouts
- principles of risk management
- sources of recognised publications to obtain disability access guidance
- types of disability and limitations that each disability places on an individual's ability to access the environment
- workplace requirements for providing access advice on the design of the built environment:
 - documentation and records administration
 - format and content of:
 - client contractual arrangements
 - design advice reports
 - quality
 - work role boundaries - responsibilities, limitations and professional abilities.
 -

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or a simulated workplace using realistic conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to documentation, information and technologies required to achieve the performance criteria and performance evidence.
