building design projects**

Assessment Requirements for CPPBDN8102 Advise on compliance requirements for large and complex building design projects

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 11.0.

Supersedes and is equivalent to CPPBDN8002A Research compliance requirements for complex building design projects. Updated to meet the Standards for Training Packages 2012.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by advising on compliance with codes, standards and planning requirements for two different construction Type A building projects, as defined in the National Construction Code (NCC).

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- relevant local, state/territory and national legislative, industry and workplace requirements:
 - work health and safety (WHS)
 - planning requirements, schemes and processes
 - compliance relating to construction Type A building design projects:
 - energy efficiency
 - construction materials and methods
 - Australian Standards
 - NCC deemed-to-satisfy (DTS) and alternative solution requirements
 - environmental impact and sustainability requirements
 - codes and standards for specific locations and conditions
- applicable variations in compliance requirements for relevant locations and conditions:
 - bushfire threat zones
 - coastal areas
 - climate zones
 - flood zones
 - mountainous areas
 - heritage

- pest control
- sources of reliable information for interpreting compliance requirements.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations. Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed. This includes access to:

- computer with internet access and word processing software
- relevant workplace documentation, legislation, regulations, codes and standards
- technical references with current information on compliance requirements.
