Assessment Requirements for CPPCLO3003 Clean using safe work practices

Release: 2

Assessment Requirements for CPPCLO3003 Clean using safe work practices

Modification History

Release	Comment
Release 1	Replaces superseded non-equivalent CPPCLO2033A Plan for safe and efficient cleaning activities and CPPCMN3003A Contribute to workplace safety arrangements. This version first released with CPP Property Services Training Package Version 4.
Release 2	Minor update to typo in the Knowledge Evidence, replace 'distilling' with 'diluting'. This version released with CPP Property Services Training Package Version 5.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit.

The person must also safely perform three different cleaning tasks in a commercial or residential cleaning site, in which each task must involve:

- transporting equipment and cleaning products to the area to be cleaned
- completing cleaning tasks according to client and company requirements using cleaning equipment and products selected and prepared according to job requirements
- returning equipment and materials to cleaning storage area.

In doing the above work, the person must:

- identify site hazards and control risks before commencing the task
- use safe and efficient cleaning methods
- correctly and safely handle waste, including contaminated materials.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- company policies and procedures for applying work health and safety (WHS) practices while cleaning, including:
 - assessing and reporting hazards in the workplace
 - incident reporting

- selecting and using personal protective equipment (PPE) required for the cleaning task
- safe handling techniques for working with hazardous chemicals, including:
 - emergency chemical spill control measures
 - routes of entry and potential symptoms of exposure to chemicals
 - safe methods for diluting chemicals
 - working according to safety data sheets (SDS)
- key requirements of legislation, regulations and codes of practice relating to cleaning safely at heights
- processes for safely handling and disposing of waste, including:
 - chemicals past their expiry date
 - obsolete equipment
 - packaging
 - used containers
 - used or contaminated PPE
 - used or unused chemicals.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - access equipment
 - PPE as listed in the range of conditions
- materials:
 - cleaning products required for the task
- specifications:
 - company policies and procedures for applying WHS practices
 - equipment operating manuals
 - product labels
 - SDS
 - safety instructions
- physical conditions:
 - commercial or residential work sites
- relationships with team members and supervisor:
 - work may be conducted alone or as part of a team.

Timeframe:

- as specified by the task.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
