Assessment Requirements for CPPCLO3004 Maintain carpeted floors

Release: 2

Assessment Requirements for CPPCLO3004 Maintain carpeted floors

Modification History

Release	Comment
Release 1	Replaces superseded equivalent CPPCLO2004A Maintain carpeted floors. This version first released with CPP Property Services Training Package Version 4.
Release 2	Minor update to typo in the Knowledge Evidence, replace 'distilling' with 'diluting'. This version released with CPP Property Services Training Package Version 5.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit.

The person must also maintain two different carpets where:

- one carpet type must be a natural fibre selected from:
 - organic (plant) fibres, such as cotton and sisal
 - wool
- one carpet type must be a synthetic fibre selected from:
 - acrylic
 - nylon
 - polyester
 - polypropylene.

In doing the above work, the person must:

- identify site hazards and control risks before commencing the task
- correctly identify the type and characteristics of the carpet and carpet fibres
- select and prepare cleaning equipment and chemicals required for carpet type
- select and apply carpet maintenance method suited to carpet type.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- carpet characteristics, including:
 - methods of carpet construction

- types and features of fibres
- environmental requirements relating to use of chemicals when maintaining carpeted floors, including:
 - clean-up, containment and isolation procedures
 - emergency chemical spill control measures
 - environmental protection agency requirements relating to maintaining carpeted floors
 - hazardous materials handling
 - use of low-energy cleaning methods
 - use of low-moisture cleaning methods
 - use of low water-use equipment and water-efficient cleaning methods
 - use of non-chemical cleaning methods
- range and characteristics of cleaning chemicals and equipment and their applications for carpet maintenance
- key requirements of legislation, regulations, codes of practice and industry advisory standards relating to maintaining carpeted floors, including:
 - AS/NZS 3733 Textile floor coverings – Cleaning maintenance of residential and commercial carpeting
 - industry advisory standards and codes, such as dangerous goods codes
- processes for safely handling and disposing of waste, including:
 - chemicals past their expiry date
 - disposable vacuum liner bags
 - litter
 - obsolete equipment
 - used containers
 - used or contaminated personal protective equipment (PPE)
 - used or unused chemicals
- safe handling techniques for working with hazardous chemicals, including:
 - emergency chemical spill control measures
 - routes of entry and potential symptoms of exposure to chemicals
 - safe methods for diluting chemicals
 - working according to safety data sheets (SDS).

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - vacuuming equipment and accessories as listed in the range of conditions
 - PPE as listed in the range of conditions
- specifications:
 - AS/NZS 3733 Textile floor coverings – Cleaning maintenance of residential and commercial carpeting

- equipment operating manuals
- product labels
- SDS
- safety instructions on equipment
- physical conditions:
 - suitable work site or venue with carpeted floors
- relationships with team members and supervisor:
 - work may be conducted alone or as part of a team.

Timeframe:

- as specified by the task.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
