Assessment Requirements for CPPCLO3043 Clean using microfibre and chemical-free techniques

Release: 1

Assessment Requirements for CPPCLO3043 Clean using microfibre and chemical-free techniques

Modification History

Release 1.

Replaces superseded equivalent CPPCLO2043A Clean using microfibre techniques.

This version first released with CPP Property Services Training Package Version 4.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit.

The person must also clean two of the following surfaces in a commercial or residential work site, using microfibre and chemical-free cleaning techniques:

- fittings
- floor
- furniture.

In doing the above work, the person must:

- assess and manage work site risks
- assess suitability of microfibre and chemical-free cleaning techniques for the task
- clean and store used microfibre equipment at the end of the cleaning task according to manufacturer specifications.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- benefits and application of microfibre and low-water techniques when cleaning
- characteristics and techniques of microfibre and chemical-free cleaning products
- colour-coding conventions used when handling and storing cleaning products
- company processes and procedures, including:
 - biological and viral control
 - emergency response and evacuation procedures
 - environmental protection procedures
 - hazard and risk assessment techniques
 - health and safety procedures
 - injury, dangerous occurrence and incident reporting
- company procedures required for the cleaning tasks specified in the performance evidence, including:

- client and contractual requirements
- company service standards
- documentation and information systems and processes
- work roles and responsibilities
- use of electronic job scheduling and communication devices
- methods for cleaning microfibre cloths and mops.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - microfibre cleaning equipment as listed in the range of conditions
 - personal protective equipment (PPE) as listed in the range of conditions
- specifications:
 - equipment operating manuals
 - colour-coding conventions
- physical conditions:
 - suitable work site or venue with surfaces listed in the performance evidence
- relationships with team members and supervisor:
 - work may be conducted alone or as part of a team.

Timeframe:

- as specified by the task.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
