Assessment Requirements for CPPCLO3107 Clean external surfaces

Release: 2

Assessment Requirements for CPPCLO3107 Clean external surfaces

Modification History

- | | |
|-----------|--|
| Release 2 | This version first released with CPP Property Services Training Package Release 17.0.

Editorial corrections in the Knowledge Evidence. |
| Release 1 | This version first released with CPP Property Services Training Package Release 15.0.

Supersedes and is equivalent to CPPCLO3037 Clean external surfaces. |

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- cleaning, on at least two occasions, three of the following different external surfaces, each measuring at least 4 x 4 metres:
 - brick, including rendered brick
 - concrete or polished concrete
 - metal
 - painted.

The candidate must demonstrate the following cleaning methods on each of the selected surfaces:

- low-water cleaning methods, such as using microfibre cleaning products
- scraping, pre-spraying and spot cleaning.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- personal and site security procedures and requirements:
 - site access - security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:
 - work health and safety (WHS) requirements

- Safe Work Australia regulations and guidelines
- job safety analyses (JSAs) and safe work method statements (SWMS)
- manufacturer instructions and safety data sheets (SDS)
- types of personal protective equipment (PPE) and correct selection, care, use and disposal
- slips, trips, falls and spills
- manual-handling techniques when carrying, lifting, pushing and pulling
- identification and safe practices with hazardous materials on site
- correct use of signage, barriers, containment and engineering controls and PPE
- safe use of electrical equipment
- organisational requirements for:
 - reporting incidents - accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security and breaches of site security
 - communication – face-to-face, electronic, written and photographic reporting
 - procedures for checking equipment operation and safety
 - use of cleaning equipment, cleaning agents, consumables and PPE
- cleaning methods and precautions for external surface types:
 - brick, including rendered brick surfaces
 - concrete, including polished concrete
 - metal surfaces
 - painted
 - polyresin
 - timber
- types of soil and methods to remove:
 - dirt and mud
 - oil/grease
 - mould
 - scuff marks
 - graffiti
- functions and features, safe use of and care and storage of external surface cleaning equipment:
 - scrapers and scourers
 - brushes, brooms and water-fed brooms
 - spray bottles and squeegees
- routine maintenance of cleaning equipment and cloths
- selection, use, care and storage of microfibre equipment
- types of cleaning agents - their purpose, action, correct use, precautions, safe handling, storage and disposal:
 - detergents
 - sanitisers

- disinfectants
- solvents
- abrasives
- cleaning principles:
 - cleaning agent, time, agitation, temperature
 - significance of pH value of cleaning agents
 - sequence and direction of cleaning
 - achieve results while doing no harm
- techniques for cleaning correctly and safely:
 - selection of appropriate equipment
 - adjusting equipment for operator height
 - operating posture and movements
- environmentally sustainable work practices and compliance with environmental regulations:
 - storage and disposal of cleaning agents
 - minimising negative environmental impact
 - conserving energy and water
 - recycling
- waste disposal:
 - general waste
 - hazardous waste
 - recyclable waste
 - organic and green waste
 - used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.
