Assessment Requirements for CPPCLO3109 Clean fabric upholstery

Release: 3

Assessment Requirements for CPPCLO3109 Clean fabric upholstery

Modification History

Release 3	This version first released with CPP Property Services Training Package Release 17.0. Editorial corrections in the Knowledge Evidence.
Release 2	This version first released with CPP Property Services Training Package Release 16.1. Removal of the reference in the Knowledge Evidence of AS/NZS 4849.1 Upholstery cleaning – Fabric upholstery.
Release 1	This version first released with CPP Property Services Training Package Release 15.0. Supersedes and is equivalent to CPPCLO3024 Clean fabric upholstery.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- cleaning three different types of fabric upholstery:
 - one natural fibre type selected from:
 - cotton
 - linen
 - silk
 - wool
 - one synthetic fibre type
 - one blend of fibre type.

For each cleaning task, each of the following types of soil must be removed:

- one solvent soluble stain such as lipstick or grease
- one tannin stain such as coffee or red wine
- one protein stain such as milk or blood
- one water stain.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- personal and site security procedures and requirements:
 - site access - security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:
 - work health and safety (WHS) requirements
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)
 - types of personal protective equipment (PPE) and correct selection, care, use and disposal
 - slips, trips, falls and spills
 - manual-handling techniques when carrying, lifting, pushing and pulling
 - identification and safe practices with hazardous materials on site
 - correct use of signage, barriers, containment and engineering controls and PPE
 - safe use of electrical equipment
- organisational requirements for:
 - reporting incidents - accidents and injury, damage to or breakages in the cleaning area or cleaning equipment, theft and threats to personal security and breaches of site security
 - procedures for checking equipment operation and safety
 - use of cleaning equipment, cleaning agents, consumables and PPE
- cleaning methods and precautions for upholstery characteristics:
 - construction method
 - weave
 - texture
 - fabric
 - colour fastness
- types of soil commonly found on upholstery:
 - solvent soluble
 - tannin
 - protein
 - water
- functions and features of cleaning equipment, safe use, routine maintenance and storage:
 - cloths
 - microfibre cloths
 - sprayers
 - brushes

- types of cleaning agents - their purpose, action, correct use, precautions, safe handling, storage and disposal:
 - acid cleaners
 - alkaline cleaners
 - neutral cleaners
 - solvent cleaners
- protein spotter functions, features and use of topical upholstery treatments:
 - antimicrobial agents
 - antistatic agents
 - deodorisers
 - protectors
- cleaning principles:
 - cleaning agent, time, agitation, temperature significance of pH value of cleaning agents
 - significance of pH value of cleaning agents
 - sequence and direction of cleaning
 - achieve results while doing no harm
- environmentally sustainable work practices and compliance with environmental regulations:
 - storage and disposal of cleaning agents
 - ways of minimising negative environmental impact
 - conserving energy and water
 - recycling
- waste disposal:
 - general waste
 - hazardous waste
 - recyclable waste
 - organic and green waste
 - used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.
