Assessment Requirements for CPPCLO4111 Strip and seal hard floors

Release: 1

Assessment Requirements for CPPCLO4111 Strip and seal hard floors

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 15.0.

Supersedes and is equivalent to CPPCLO3002 Restore hard floor surfaces.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- stripping and resealing three different floor surfaces of at least 4 x 4 metres from the following:
 - one vinyl floor
 - one tiled floor
 - one stone floor
 - one timber floor
 - one engineered hard floor.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- aspects of the following relevant to stripping and sealing hard floors:
 - work health and safety (WHS) requirements
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)
 - Environment Protection Authority (EPA) and local requirements for prescribed waste disposal
- personal and site security procedures and requirements:
 - site access - security cards, codes and keys
 - areas of the worksite not to be accessed
 - alarm activation and deactivation
 - maintaining client privacy and confidentiality
 - contingencies if personal safety at risk
- types of hazards and risks and ways to control:

- types of personal protective equipment (PPE) and correct selection, care, use and disposal
- slips, trips, falls and spills
- manual-handling techniques when carrying, lifting, pushing and pulling
- identification and safe practices with asbestos on site
- correct use of signage, barriers, containment, engineering controls and PPE
- safe use of electrical equipment
- cleaning principles:
 - cleaning agent, time, agitation and temperature
 - significance of pH value of cleaning agents
 - sequence and direction of cleaning
 - achieve results while doing no harm
- types, characteristics and stripping and resealing methods and precautions for different hard floor surfaces:
 - resilient – vinyl, timber and engineered hard flooring
 - non-resilient – tiles and stone
- restorative methods:
 - dust mopping
 - sweeping
 - wet mopping
 - scrubbing
 - applying floor sealer finishes
 - use of microfibre cleaning products
 - spray buffing and dry buffing
- types of soils and methods to remove:
 - dust and dirt, oil/grease, food, beverages and hazardous soil
 - stains - adhered and built-up soils
- functions and features of equipment, safe use, routine maintenance and storage:
 - bassine brushes
 - rotary brushes
 - vertical drum scrubbers and cylindrical brushes
 - bristle scrubbing brooms
 - cleaning trolleys
 - cloths and microfibre products
 - scouring pads, scrapers and steel wool
 - cotton, polycotton, dust control and anti-static mops
 - doodle bag holders
 - floor pads for scrubbing and buffing and insta-lock pad holders
 - mechanical scrubbers

- range, type and characteristics of restorative cleaning products - their purpose, action, correct use, precautions, safe handling, storage and disposal:
 - detergents
 - disinfectants
 - solvents
 - abrasives
 - timber floor strippers and sealants:
 - oil modified products
 - water-based acrylic
 - water-based urethane
 - polishes
- environmentally sustainable work practices and compliance with environmental regulations:
 - storage and disposal of cleaning agents
 - ways of minimising negative environmental impact
 - conserving energy and water
 - recycling
- waste disposal:
 - general waste
 - prescribed waste
 - syringes and sharps
 - recyclable waste
 - organic and green waste
 - used materials and cleaning agents.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- industry-standard cleaning equipment
- appropriate PPE
- manufacturer's instructions and workplace documents.
