Assessment Requirements for CPPCLO4112 Assess cleaning products and equipment to meet cleaning service requirements

Assessment Requirements for CPPCLO4112 Assess cleaning products and equipment to meet cleaning service requirements

Modification History

- Release 1 This version first released with CPP Property Services Training Package Release 15.0.
- Supersedes and is not equivalent to CPPCLO4002 Develop, implement and monitor new cleaning techniques.

Performance Evidence

To demonstrate competency, a candidate must meet the elements and performance criteria of this unit by:

- compiling a portfolio of comparative information on the equipment and products appropriate for three of the following:
 - restorative carpet cleaning
 - stripping and sealing hard floors
 - maintenance of commercial hard flooring
 - cleaning amenities
 - cleaning external surfaces
 - cleaning food handling areas and equipment
 - removing stains from carpets
 - remediating mould contaminated surfaces.

The portfolio must identify sources that can be used in the future to access up-to-date information.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- aspects of the following relevant to cleaning products and equipment:
 - Safe Work Australia regulations and guidelines
 - job safety analyses (JSAs) and safe work method statements (SWMS)
 - manufacturer instructions and safety data sheets (SDS)
 - Environment Protection Authority (EPA) and local requirements for prescribed waste disposal
- strategies and resources for finding information about products and equipment
- industry personnel, organisations and networks that could provide information on products and equipment

- range of cleaning services and types of products and equipment required
- functions, features, safe use and routine maintenance of cleaning equipment
- purpose, action, correct use, precautions, safe handling and disposal of cleaning products
- methods for comparing performance of cleaning products and equipment
- methods for comparing cost-effectiveness of cleaning products and equipment
- features of environmentally sustainable products and equipment:
 - ways of minimising negative environmental impact
 - conserving energy and water.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations.

Competency is to be assessed in the workplace or a simulated environment that accurately reflects performance in a real workplace setting where these skills and knowledge would be performed.

Candidates must have access to:

- current information on cleaning products and equipment.
