Assessment Requirements for CPPHES4009

Promote the adoption of home sustainability practices

Release: 2

Assessment Requirements for CPPHES4009 Promote the adoption of home sustainability practices

Modification History

Release 2 This version first released with CPP Property Services Training Package Release 14.0.

Updated reference to reflect correction in Modification History from CPC Property Services 5.0 to CPP Property Services 9.0.

Release 1 This version first released with CPC Property Services Training Package Release 5.0.

Supersedes and equivalent to CPPHSA4007A Promote the adoption of home sustainability practices by residents. Updated to meet the Standards for Training Packages.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by assisting residents in three different households to establish a plan for adopting home sustainability practices, and to review their progress.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- barriers to adopting home sustainability practices
- behaviour change:
 - barriers to voluntary behaviour change
 - factors that increase likelihood of voluntary behaviour change
 - strategies to promote behaviour change
- communication strategies to establish rapport
- data, data collection methods and success measures related to resident adoption of home sustainability practices
- factors that increase the likelihood of voluntary adoption of home sustainability practices
- home sustainability practices:
 - energy use and management
 - refusing, reducing, reusing, recycling
 - thermal performance
 - waste minimisation and management
 - water use and management.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

This unit must be assessed in the workplace or a close simulation using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to:

- data collection tools
- relevant codes, standards and government regulations
- access to residents participating in a home sustainability assessment
- technology suitable for generating reports
- technical reference library and/or (online) access to current technical publications on:
 - promotion of behaviour change
 - home sustainability practices.
