Assessment Requirements for CPPPMT3026 Select pest management vehicle and equipment

Release: 1

Assessment Requirements for CPPPMT3026 Select pest management vehicle and equipment

Modification History

Release 1.

Replaces superseded equivalent CPPPMT3026A Select and obtain pest management vehicles, equipment and materials.

This version first released with CPP Property Services Training Package Version 2.

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit, and must identify pest management services for a minimum of two different pests to be delivered by the company, and select a vehicle and the following types of equipment suitable for the delivery of the pest management services identified:

- inspection equipment
- lockable chemical storage cupboard
- personal protective equipment
- pesticide application equipment
- pesticide measuring and mixing equipment
- waste disposal containers.

In doing the above, the person must also:

- apply knowledge of hierarchy of hazard control
- assess performance characteristics and suitability of equipment
- comply with company and compliance requirements
- identify:
 - hazards and risks associated with the pest management services
 - vehicle capacities against intended use.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- compliance requirements relevant to the pest management services to be delivered and the types of vehicle and equipment required to deliver those services
- company procedures relevant to selecting pest management vehicles and equipment, including:
 - documentation requirements
 - emergency response procedures

- enterprise maintenance and servicing procedures
- environment protection procedures
- injury, dangerous occurrence and incident reporting
- health and safety procedures
- purchasing, hiring and leasing procedures
- work documentation and reporting procedures
- equipment and chemical types and functions suitable to the work specified in performance evidence
- financing options for obtaining equipment, such as leasing, hiring or purchasing
- hazards and risks associated with different types of equipment
- product knowledge, including manufacturer specifications for equipment and products being used
- sources of industry and product information relating to vehicles and equipment required for delivering pest management services
- types of pests relevant to the area and their life cycles, habits and harbourages.

Assessment Conditions

Suitable assessment of performance requires:

- equipment:
 - telephone
 - computer with internet access
- specifications:
 - company policies and procedures
 - manufacturer specifications
 - plain English guides to compliance requirements
 - supplier information
- relationships with team members and supervisor:
 - work may be completed individually or in a team.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
