management proposals for complex or high
risk operations**

Assessment Requirements for CPPPMT3043 Prepare and present pest management proposals for complex or high risk operations

Modification History

Release 1.

Replaces superseded equivalent CPPPMT3043A Prepare and present pest management proposals.

This version first released with CPP Property Services Training Package Version 2.

Performance Evidence

A person demonstrating competency in this unit must satisfy all of the elements, performance criteria and foundation skills of this unit, and must prepare and present pest management proposals involving two different pest management methods, for two different complex or high risk operations selected from the following:

- childcare facility
- construction project
- education facility
- food manufacturing premises
- general manufacturing premises
- health care facility
- hospital
- motel
- recreational club
- residential hotel.

The proposals must cover management of four different pests, consisting of:

- each of the following:
 - cockroaches
 - rodents
- as well as two of the following:
 - ants
 - bed bugs
 - flying insects
 - spiders.

Two or more pests may be managed at one location.

In doing the above, the person must also:

- analyse resource requirements of a pest management plan
- calculate costs of service provision
- demonstrate compliance with company and compliance requirements
- identify, source and include relevant supporting documentation
- identify hazards and risks associated with the pest management plan and specific site
- prepare and present pest management proposals
- prepare cost estimates.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- company procedures for preparing and documenting pest management proposals, including:
 - costing and pricing procedures
 - emergency response procedures
 - environment protection procedures
 - health and safety procedures
 - plans and quotations
- compliance requirements relevant to preparing pest management proposals for complex or high risk operations
- principles of integrated pest management
- product knowledge, including manufacturer specifications for equipment and products being used
- types of pests relevant to the area and their life cycles, habits and harbourages
- types of supporting information to be included with proposals, including:
 - accounting procedures
 - auditing procedures
 - formal assessment documents
 - impact statements
 - inspection reports
 - insurances, including:
 - professional indemnity insurance
 - public liability insurance
 - licences held by staff and company
 - pest management methods proposed
 - product or chemical data sheets
 - quality assurance certification
 - reporting systems
 - training systems
 - vehicle details
 - workers compensation coverage.

Assessment Conditions

Suitable assessment of performance requires:

- equipment:
 - computer with internet access
- specifications:
 - inspection reports
 - pest management plans
 - product information and costings
 - manufacturer specifications
 - client records
 - company procedures
 - labour rates and conditions
 - plain English guides to compliance requirements
- physical conditions:
 - venue and required resources for presenting proposal to client
- relationships with team members and supervisor:
 - work must be conducted individually, under supervision
- relationship with client:
 - consultation with client required
- timeframe:
 - according to work order.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
