Assessment Requirements for CPPREP4506 Manage offsite and lone worker safety in real estate

Release: 1

Assessment Requirements for CPPREP4506 Manage offsite and lone worker safety in real estate

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 8.0.

New unit of competency.

Performance Evidence

To demonstrate competency in this unit, a person must develop, implement, monitor and review essential offsite and lone worker safety controls for a real estate agency.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- Commonwealth and state or territory legislation and local government regulations relevant to offsite and lone worker safety
- ethical standards in real estate relevant to offsite and lone worker safety
- application of the hierarchy of risk control for offsite and lone worker safety
- principles and techniques for:
 - applying the hierarchy of risk control
 - conducting safety risk assessments and developing safety controls
 - defining roles and responsibilities in implementing safety controls
 - developing policies and procedures to control risks to safety
 - developing implementation strategies for safety controls
 - developing and implementing a staff feedback system for safety controls
 - reviewing safety controls.

Assessment Conditions

Assessors must satisfy the requirements for assessors listed in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- documents for a real estate agency to allow risk assessment of working offsite and working alone
- role descriptions for people participating in role-play exercises
- equipment, communication and data access and storage technology.
