Assessment Requirements for CPPSEC2104

Apply risk assessment to select and carry out response to security risk situations

Release: 2

Assessment Requirements for CPPSEC2104 Apply risk assessment to select and carry out response to security risk situations

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 7.0.

Supersedes and is equivalent to CPPSEC2004B Respond to security risk situation.

Updated to meet the Standards for Training Packages.

Release 2 This version first released with CPP Property Services Training Package Release 7.1.

Supersedes and is equivalent to CPPSEC1001A Identify and report security risk situations.

Performance Evidence

To demonstrate competency in this unit, a person must apply risk assessment to select and carry out appropriate responses to two different security risk situations:

- one risk situation involving a suspicious package in a public area
- one risk situation involving a person behaving in an aggressive and threatening manner.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- standard operating procedures and workplace policies that ensure compliance with legislative and regulatory requirements when selecting and carrying out responses to security risk situations:
 - apprehension, arrest and restraint of persons
 - counter terrorism
 - duty of care
 - licensing requirements and limits of own authority
 - use of force
 - use of self-defence techniques
 - workplace health and safety (WHS)

- approved communication terminology, call signs and radio channels used in the security industry
- approved security response options
- basic understanding of the force model
- current national terrorism threat level and context
- methods and reasons for securing and preserving an incident or crime scene
- methods for preserving, maintaining, storing and transporting evidence and exhibits that may be used in court
- potential adverse health effects arising from the use of force or physical restraint including positional asphyxia
- procedures for communicating and collaborating with emergency services personnel
- process of dynamic risk assessment and how it is applied
- purpose of Australia's *Strategy for Protecting Crowded Places from Terrorism* and understanding of:
 - definition of crowded places
 - key security issues for crowded places
 - objectives, characteristics and identification of active armed offenders
 - definition of hostile vehicles and methods of attack
 - signs of chemical weapons attack and recommended response
 - general features of improvised explosive devices and recommended incident response
- signs and indicators of stress
- signs of possible harassment or assault
- techniques for recognising and controlling own stress
- types of behavioural anomalies and suspect behaviours that can indicate criminal activity, hostile reconnaissance or the potential for terrorist activity
- types of behaviours and non-verbal language that can escalate conflict
- types of security risks that may be present in the work environment.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations (RTOs). All individuals engaged by a licensed RTO for security licensing purposes must hold both a security trainer's licence (where such a licence exists within the relevant jurisdiction) and a security operative licence that authorises the security activities about which the individual is training/assessing. Regulators may impose other assessor conditions to meet jurisdictional assessment requirements.

Assessment of performance must be undertaken in a simulated workplace environment. Tasks are to be performed to the level of proficiency and within the time limits that would be expected in a workplace.

The assessment of performance evidence must be done by direct observation of the learner by an assessor, either by an assessor observing the learner physically or by an assessor observing the learner via audio and visual media.

Assessment of performance evidence is only valid where the learner has been assessed performing the role of a security officer.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- specifications of assessment tasks to apply risk assessment to select and carry out response to security risk situations
- appropriate documents, materials, equipment and personal protective equipment (PPE) currently used in industry
- standard operating procedures and workplace policies related to the security work role and which specify requirements for complying with industry legislation and regulations
- a suspicious package to enable achievement of the performance evidence.
