Assessment Requirements for CPPSEC3110

Control persons using batons

Release: 1

Assessment Requirements for CPPSEC3110 Control persons using batons

Modification History

Release 1.

Supersedes and is equivalent to CPPSEC3014A Control persons using baton. Updated to meet the Standards for Training Packages.

This version first released with CPP Property Services Training Package Version 7.0.

Performance Evidence

To demonstrate competency in this unit, a person must control persons using batons in three different threat situations involving persons holding weapons.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- standard operating procedures and workplace policies that ensure compliance with legislative and regulatory requirements when controlling persons using batons:
 - anti-discrimination and diversity
 - apprehension, arrest and restraint of persons
 - duty of care
 - licensing requirements and limits of own authority
 - trespass and the removal of persons
 - use of force
 - workplace health and safety (WHS)
- approved communication terminology, call signs and radio channels used in the security industry
- arrest and control techniques using batons
- basic negotiation techniques
- blocking techniques using batons
- first aid procedures and their application
- methods of restraint and associated effects, including signs of positional asphyxiation
- procedures for communicating with emergency services personnel
- procedures for effecting an arrest
- process of dynamic risk assessment and how it is applied
- response options using batons that are within specified legal limits
- signs that a person may be suffering from emotional or physical distress
- signs that a person may be suffering from mental illness
- signs that a person may be under the influence of intoxicating substances

- stances and grips to be adopted when using baton
- target (strike) areas of the body (hands, arms, legs and feet)
- techniques for drawing batons
- types and uses of personal protective equipment (PPE) required when using batons
- types of batons and holds and grips associated with each
- types of injuries that can be incurred from baton strike including fractures, shock and bleeding
- understanding of the force model
- vital areas of the body and reasons they are to be avoided (head, neck, throat, spine, tailbone, chest, kidney and liver, clavicle and collar bone)
- ways in which social and cultural differences may be expressed.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations (RTOs). All individuals engaged by a licensed RTO for security licensing purposes must hold both a security trainer's licence (where such a licence exists within the relevant jurisdiction) and a security operative licence that authorises the security activities about which the individual is training/assessing. Regulators may impose other assessor conditions to meet jurisdictional assessment requirements.

Assessment of performance must be undertaken in a simulated workplace environment. Tasks are to be performed to the level of proficiency and within the time limits that would be expected in a workplace.

The assessment of performance evidence must be done by direct observation of the learner by an assessor, either by an assessor observing the learner physically or by an assessor observing the learner via audio and visual media.

Assessment of performance evidence is only valid where the learner has been assessed performing the role of a security officer.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- specifications of assessment tasks to control persons using batons
- appropriate documents, materials, equipment and personal protective equipment (PPE) currently used in industry including:
 - a baton
 - weapon props to enable achievement of the performance evidence
- standard operating procedures and workplace policies related to the security work role and which specify requirements for complying with industry legislation and regulations.
