Assessment Requirements for CPPSEC3120 Load and unload cash-in-transit in secured and unsecured environments

Release: 1

Assessment Requirements for CPPSEC3120 Load and unload cash-in-transit in secured and unsecured environments

Modification History

Release 1.

Supersedes and is non-equivalent to CPPSEC2027A Load and unload cash in transit in a secured environment and CPPSEC3050A Load and unload cash-in-transit in an unsecured environment.

Units merged to reduce duplication and align with vocational needs.

This version first released with CPP Property Services Training Package Version 7.0.

Performance Evidence

To demonstrate competency in this unit, a person must load and unload cash-in transit consignments in:

- one secured location
- two different unsecured locations.

In doing this, the person must meet the performance criteria for this unit.

Knowledge Evidence

To be competent in this unit, a person must demonstrate knowledge of:

- standard operating procedures and workplace policies that ensure compliance with legislative and regulatory requirements when loading and unloading cash-in-transit:
 - anti-discrimination and diversity
 - apprehension, arrest and restraint of persons
 - counter terrorism
 - duty of care
 - licensing requirements and permits for firearms, and handling and carrying dangerous goods
 - limits of own responsibility and authority
 - trespass and the removal of persons
 - use of force
 - workplace health and safety (WHS) including manual handling
- accessibility and security issues that would deem a loading site to be inappropriate
- approved communication terminology, call signs and radio channels used in the security industry
- authorisations necessary to load and unload cash-in-transit consignments
- cash-in-transit carrying, loading and unloading techniques
- correct strategic positioning and tactics when conducting cash-in-transit operations

- difference between secured and unsecured loading sites and the risks associated with each
- principles of effective teamwork
- procedures for activating and de-activating a range of common security systems and devices
- procedures for handling non-conforming consignments
- procedures for responding to a violent encounter including armed robbery
- process of dynamic risk assessment and how it is applied
- the phonetic alphabet and how it is used
- types of security risks that may be encountered during cash-in-transit operations and appropriate responses for each
- understanding of the force model.

Assessment Conditions

Assessors must satisfy the requirements for assessors contained in the Standards for Registered Training Organisations (RTOs). All individuals engaged by a licensed RTO for security licensing purposes must hold both a security trainer's licence (where such a licence exists within the relevant jurisdiction) and a security operative licence that authorises the security activities about which the individual is training/assessing. Regulators may impose other assessor conditions to meet jurisdictional assessment requirements.

Assessment of performance must be undertaken in a simulated workplace environment. Tasks are to be performed to the level of proficiency and within the time limits that would be expected in a workplace.

The assessment of performance evidence must be done by direct observation of the learner by an assessor, either by an assessor observing the learner physically or by an assessor observing the learner via audio and visual media.

Assessment of performance evidence is only valid where the learner has been assessed performing the role of a security officer.

Assessors are responsible for ensuring that the person demonstrating competency has access to:

- specifications of assessment tasks to load and unload cash-in-transit in secured and unsecured environments
- appropriate documents, materials, cash-in-transit equipment and personal protective equipment (PPE) currently used in industry
- standard operating procedures and workplace policies related to the security work role and which specify requirements for complying with industry legislation and regulations.
