Assessment Requirements for CPPSIS2015

Assist with surveying and spatial field activities

Release: 1

Assessment Requirements for CPPSIS2015 Assist with surveying and spatial field activities

Modification History

Release 1.

Replaces superseded equivalent CPPSIS2015A Assist in field activity.

This version first released with CPP Property Services Training Package Version 3.

Performance Evidence

A person demonstrating competency in this unit must satisfy the requirements of the elements, performance criteria, foundation skills and range of conditions of this unit. The person must also follow procedures and instructions to assist with field support activities in two projects in the surveying and spatial field.

For each project, the person must use safety equipment, including personal protective equipment (PPE), and a communication device, such as ultra-high frequency radio.

The person must also use four of the following:

- compass
- data recording equipment
- digital or hard copy map
- distance measuring wheel
- level
- measuring instruments
- scientific calculator
- hand-held laser measuring device.

While assisting in the above field support activities, the person must:

- use and check tools and equipment to identify faults or problems
- communicate clearly with others to clarify work tasks and report problems
- comply with organisational and manufacturer requirements in order to work safely and protect the environment
- cooperate with team members to follow instructions
- follow procedures to identify and mark surface positions
- report problems and seek assistance with work tasks
- assist in restoring work site to as near as practicable to original condition after field activities are completed.

Knowledge Evidence

A person demonstrating competency in this unit must demonstrate knowledge of:

- industry-accepted standards and practices for marking surface positions and measuring and recording basic spatial data
- organisational policies and procedures covering work tasks relating to field projects, including reporting and equipment use and maintenance
- purpose of and storage procedures for the tools and equipment required in above field activities
- site restoration and waste disposal procedures
- work health and safety procedures relating to field support activities, including required PPE.

Assessment Conditions

The following must be present and available to learners during assessment activities:

- equipment:
 - as specified in the performance evidence, including PPE
- specifications:
 - equipment operating manuals and manufacturer specifications
 - standard operating procedures and documentation relating to field activities
- relationships with team members and supervisor:
 - access to supervisor and other appropriate persons for assistance with work tasks.

Timeframe:

- as specified by task and organisational requirements.

Assessor requirements

As a minimum, assessors must satisfy the assessor requirements in the Standards for Registered Training Organisations (RTOs) current at the time of assessment.
