Assessment Requirements for CPPWMT3006 Receive, transfer and dispatch waste

Release: 1

Assessment Requirements for CPPWMT3006 Receive, transfer and dispatch waste

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes but is not equivalent to:

- CPPWMT3013A Receive waste.
- CPPWMT3015A Move waste using loadshifting equipment.
- CPPWMT3018A Dispatch processed waste.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by receiving, transferring and dispatching waste on two separate occasions.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- legislative and procedural requirements applicable to receiving, transferring and dispatching waste and relevant to the workplace:
 - commonwealth, state and territory legislation and regulations in the state or territory of operation, including work health and safety (WHS)
 - chain of responsibility requirements
 - duty of care
 - environmental protection
 - load restraint requirements
 - licence requirements
- methods for checking the integrity of waste containment
- methods for sampling waste loads
- pre-operational checks, start-up and shutdown procedures for plant and equipment used to receive, transfer and dispatch waste
- signage and transport requirements for regulated or prescribed waste
- types of load-shifting and attachments and methods used to load, move and unload different types of waste
- typical hazards encountered when using load-shifting equipment to load, move and unload waste, including hazardous substances and dangerous goods
- waste types
- workplace policies and procedures for receiving, transferring and dispatching waste:

- documentation and reporting
- load-shifting equipment operation and maintenance
- waste receipt schedules
- WHS:
 - hazard identification, risk assessment and control using the hierarchy of control
 - injury, dangerous occurrence and incident reporting
 - personal protective equipment
- signalling techniques and communication processes required to maintain safety while operating load-shifting equipment.
-

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to workplace policies and procedures, job and waste receipt schedules, documentation, manufacturer instructions, load-shifting equipment and attachments, dispatch vehicle and waste required to achieve the performance evidence.
