# **Assessment Requirements for CPPWMT3009 Place, compact and cover waste at landfill sites**

**Release: 1**

# **Assessment Requirements for CPPWMT3009 Place, compact and cover waste at landfill sites**

## **Modification History**

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes but is not equivalent to:

- CPPWMT3020A Place and compact waste.
- CPPWMT3021A Cover waste.

## **Performance Evidence**

To demonstrate competency, a candidate must meet the performance criteria of this unit by placing, compacting and covering waste at a landfill site on two separate occasions.

## **Knowledge Evidence**

To be competent in this unit, a candidate must demonstrate knowledge of:

- legislative and procedural requirements applicable to placing, compacting and covering waste at landfill sites and relevant to workplace operations:
  - commonwealth, state and territory legislation and regulations in the state or territory of operation including work health and safety (WHS)
  - classifications of dangerous goods and hazardous substances
  - environmental protection
- pre-start, start-up, shutdown, isolation and maintenance procedures for plant used to place, compact and cover waste at landfill sites
- techniques used to cover waste in a landfill cell to reduce the impact on the environment and improve landfill efficiency
- techniques used to compact waste in a landfill cell
- types of plant and equipment used to place, compact and cover waste at landfill sites
- typical hazards associated with placing, compacting and covering waste at landfill sites
- waste batter cover materials and types
- workplace policies and procedures for placing, compacting and covering waste at landfill sites:
  - documentation and reporting
  - plant and equipment operation and maintenance
  - WHS:
    - emergency response
    - hazard identification, risk assessment and control using the hierarchy of control

- injury, dangerous occurrence and incident response and reporting
- personal protective equipment
- signalling techniques and communication processes required to maintain safety while operating plant.

## **Assessment Conditions**

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to workplace policies and procedures, job schedules and documentation, plant, equipment, waste and landfill cell required to achieve the performance evidence.
