Assessment Requirements for CPPWMT4010 Assess and advise on waste avoidance options

Release: 1

Assessment Requirements for CPPWMT4010 Assess and advise on waste avoidance options

Modification History

Release 1 This version first released with CPP Property Services Training Package Release 10.0.

Supersedes and is equivalent to CPPWMT4062A Apply waste avoidance techniques.

Performance Evidence

To demonstrate competency, a candidate must meet the performance criteria of this unit by assessing and advising on waste avoidance options in two different areas of waste generation.

Knowledge Evidence

To be competent in this unit, a candidate must demonstrate knowledge of:

- impact of waste on the environment and relationship between waste and greenhouse emissions
- legislative and procedural requirements applicable to assessing and advising on waste avoidance options:
 - commonwealth, state and territory legislation and regulations in the state or territory of operation including, work health and safety (WHS)
 - confidentiality and privacy
 - environmental protection
- mathematical methods used to calculate costs and benefits of waste avoidance options
- methods for prioritising waste avoidance options in the order of greatest waste avoidance potential
- types of waste avoidance options and methods for assessing feasibility of options
- waste hierarchy
- waste types, drivers and causes
- workplace policies and procedures for assessing and advising on waste avoidance options:
 - client service
 - documentation and reporting
 - WHS:
 - hazard identification, risk assessment and control using the hierarchy of control
 - injury, dangerous occurrence and incident reporting
 - personal protective equipment.

Assessment Conditions

Assessors must meet the requirements for assessors contained in the Standards for Registered Training Organisations.

Assessment must be conducted in the workplace or in a simulated workplace environment using realistic workplace conditions, materials, activities, responsibilities, procedures, safety requirements and environmental considerations.

Candidates must have access to workplace policies and procedures, documentation, technologies, equipment and waste site required to achieve the performance evidence.
