Assessment Conditions

Evidence for assessment must be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and apply the competency in different situations or environments.

Valid assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered while training dogs for response, including coping with difficulties, irregularities and changes to routine. This unit contains knowledge which may be assessed off the job, for example, in a structured learning process.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
