Assessment Requirements for CSCDOG010 Manage detector dogs

Release: 1

Assessment Requirements for CSCDOG010 Manage detector dogs

Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 3.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least five occasions and include:

- deploying dogs in a variety of operational environments in accordance with relevant legislation and organisational policies, procedures and guidelines that includes:
 - applying dog-handling theory and deployment practices
 - communicating effectively to achieve operational outcomes
 - planning and organising activities to prepare for the deployment of detection dogs
 - responding appropriately to unauthorised and illegal materials in ways that preserve evidence
 - transporting dogs safely
 - collecting, analysing and organising information to produce records and reports required by the organisation, work unit standards and animal welfare authorities.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- relevant legislation and organisational policies and procedures related to working with dogs including:
 - role of detection dogs within the organisation
 - animal health and welfare requirements and regulations affecting working dogs
 - humane and positive training methods that reinforce natural behaviour and maintain the working skills and enthusiasm of detector dogs
 - records and reports required by legislative authorities, the organisation, work unit and animal welfare authorities
- organisational policies and procedures related to unauthorised and illegal materials and evidence handling
- dog-training methodologies and practices relevant to the dogs' use in the organisation including:
 - conditioning principles and appropriate methods of rewarding specific detector dogs for exhibiting required behaviour
 - items and their associated odours that a detector dog could be required to detect in its

- working role within the organisation
- methods of assessing when dogs are ready to extend the range of odours they are able to detect
- positive and negative indicators shown by detector dogs when detecting (or not detecting) specific odours
- methods of transporting dogs safely and without stress
- capabilities and limitations of dogs working within the organisation
- work environment in which dogs could be deployed and emergencies that could arise within those environments
- responses that dogs should give to voice commands and hand signals
- emergency response and evacuation procedures to maintain security
- duty of care to all involved
- limits of own authority
- Workplace/Occupational Health and Safety (WHS/OHS) relevant to the job task
- approved communication terminology, call signs and radio channels used by emergency personnel
- how to apply the hierarchy of control and use of force to control hazards and minimise risk
- location of emergency equipment in the workplace
- procedures for communicating and collaborating with responding officers and other services
- process of dynamic risk assessment and how it is applied.

Assessment Conditions

Assessment of skills must occur in a custodial environment.

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- real dogs
- a range of relevant exercises
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
