Assessment Requirements for CSCDOG012

Prepare stimulus aids for use with dogs

Release: 1

Assessment Requirements for CSCDOG012 Prepare stimulus aids for use with dogs

Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 3.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least five occasions and include:

- preparing stimulus aids for safe use in training dogs in a variety of environments
- completing training documentation and logs in accordance with legislation, and organisational policy, procedures and guidelines
- following organisational requirements to request and handle restricted training aids.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- legislation, regulations and organisational policies, procedures and guidelines related to:
 - use of dogs within the organisation
 - acquisition and security of restricted materials
 - unauthorised and illegal materials and evidence handling
 - records and reports required by the organisation in relation to odour detection dog training
 - use of personal protective equipment (PPE)
- dog-training methodologies and practices related to odour detection
 - capabilities and limitations of the teams working within the organisation
 - work environment in which dogs could be deployed and emergencies that could arise within those environments to inform selection of odours
 - conditioning principles and appropriate methods of rewarding dogs for exhibiting required behaviour
 - items and their associated odours that a dog could be required to detect in its working role within the organisation
 - methods of assessing when dogs are ready to extend the range of odours they are able to detect
 - positive and negative indicators shown by dogs when detecting (or not detecting) specific odours
 - emergency response and evacuation procedures to maintain security

- duty of care to all involved
- limits of own authority
- Workplace/Occupational Health and Safety (WHS/OHS) relevant to the job task
- approved communication terminology, call signs and radio channels used by emergency personnel
- how to apply the hierarchy of control and use of force to control hazards and minimise risk
- location of emergency equipment in the workplace
- procedures for communicating and collaborating with responding officers and other services
- process of dynamic risk assessment and how it is applied.

Assessment Conditions

Assessment of skills must occur in a custodial environment.

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- real dogs
- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and personal protective equipment (PPE) currently used in industry.
