Where this unit specifies performance in areas with unpredictable and high risk implications, assessment in simulations should be used as well as retrospective documentation and observation of performance working with offenders in the community.

Valid assessment of this unit requires a workplace environment or one that closely resembles normal work practice and replicates the range of conditions likely to be encountered by an individual responsible for coordination of intervention strategies and programs for offenders as part of a coordinated team, including coping with difficulties, irregularities and changes to routine.

Assessors must satisfy the NVR/AQTF mandatory competency requirements for assessors.
