Assessment Requirements for CSCINT012

Assist offenders to change behaviour

Release: 1

Assessment Requirements for CSCINT012 Assist offenders to change behaviour

Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 5.0

Performance Evidence

Evidence required to demonstrate competence in this unit must satisfy all of the requirements of the elements and performance criteria on at least two occasions and include:

- making clear agreements with offenders about goals, processes, and outcomes
- providing support in the maintenance and review of individual plans
- establishing a balance between being directive and the offender maintaining responsibility and control over plan
- operating as part of a case management team
- demonstrating appropriate responses to positive and negative developments
- maintaining offenders' focus on personal responsibility.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- organisational policies and procedures in relation to offender management
- individual/change plans
- principles of case management
- code of conduct
- duty of care
- confidentiality and right to information
- contributing factors to offending behaviour
- communication techniques
- offender information system
- internal recording and reporting systems
- available support services and stakeholders.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment, and PPE currently used in industry.
