Assessment Requirements for CSCOFM039 Maintain the health, safety and welfare of offenders

Release: 1

Assessment Requirements for CSCOFM039 Maintain the health, safety and welfare of offenders

Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 5.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two occasions and include:

- checking health, safety and hygiene practice of offenders
- reporting verbally and in writing on concerns about the safety and welfare of offenders
- consulting offender information systems
- supporting the routine safety and protection of offenders classified at risk
- advising offenders on correct use of personal protective equipment (PPE)
- reporting risks and incidents.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and knowledge of:

- organisational policies and procedures related to the health and safety of offenders
- organisational code of conduct
- duty of care
- human rights principles
- biohazard control procedures
- health and safety reporting procedures.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
