Assessment Conditions

Assessment of this unit can be applied using a combination of training outcomes and performance in the workplace, with the principal evidence developed through performance in routine work functions in the workplace.

Evidence needs to be gathered over time in a range of contexts to ensure the person can achieve the unit outcome and/or apply the principles in a different situation or change of environment. Where this unit specifies performance in areas with unpredictable and risk implications, assessment in simulations should be used as well as retrospective documentation and observation of performance working with high risk offenders and in a range of different environments where searches occur.

This unit has been identified by industry as suitable for holistic assessment with:

- CSCSAS001 Maintain security
- PUALAW001B Protect and preserve an incident scene
