Assessment Requirements for CSCSAS025 Contain incidents that jeopardise safety and security

Release: 1

Assessment Requirements for CSCSA025 Contain incidents that jeopardise safety and security

Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 5.0

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two occasions and include:

- assessing risks to safety and security and applying appropriate procedure
- using effective communication techniques appropriate to the situation
- applying strategies to prevent escalation of incidents
- using security and relevant equipment
- demonstrating situational awareness
- recording observations and completing written and oral reports on incidents.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- organisational policies and procedures related to responding to incidents
- effective communication
- situational awareness and personal safety
- principles of cooperative teamwork
- equipment and available resources
- duty of care.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
