Assessment Requirements for CSCSAS032 Participate in incident briefing, debriefing and analysis

Release: 1

Assessment Requirements for CSCSA032 Participate in incident briefing, debriefing and analysis

Modification History

Release 1. This is the first release of this unit of competency in the CSC Correctional Services Training Package Release 5.0.

Performance Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria on at least two occasions and include:

- using effective oral and written communication
- using reflection techniques to reflect on own and others' actions to inform analysis of incident response
- using analytical skills to assist in the examination of details relating to the incident and response
- using appropriate non-judgemental and emotionally safe language when participating in incident briefing and debriefing.

Knowledge Evidence

Evidence required to demonstrate competence in this unit must be relevant to and satisfy all of the requirements of the elements and performance criteria and include knowledge of:

- organisational policies and procedures related to briefing and debriefing conduct, incident response and reporting
- duty of care
- code of conduct
- appropriate and effective language and style of communication
- available resources that may assist post-incident analysis
- post incident support services available.

Assessment Conditions

Assessors must hold credentials specified within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must satisfy the Principles of Assessment and Rules of Evidence and all regulatory requirements included within the Standards for Registered Training Organisations current at the time of assessment.

Assessment must occur in workplace operational situations. Where this is not appropriate, assessment must occur in simulated workplace operational situations that reflect workplace

conditions.

Assessment processes and techniques must be appropriate to the language, literacy and numeracy requirements of the work being performed and the needs of the candidate.

Resources for assessment must include access to:

- a range of relevant exercises, case studies and/or simulations
- acceptable means of simulation assessment
- applicable documentation, including workplace procedures, regulations, codes of practice and operation manuals
- relevant materials, tools, equipment and PPE currently used in industry.
