In the course of the above, the candidate must:

- meet brief requirements
- integrate production items correctly
- achieve required visual impact
- meet production deadlines
- save and store titles and other graphic images according to organisational procedures
- review the design process for improvement
- adopt safe ergonomic practices when using screens and keyboards for extended periods of time.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- strategies for addressing typical challenges when creating titles for screen productions
- strategies to effectively collaborate with others
- processes for confirming available budget for the production of titles
- techniques for assessing ideas for implications on cost, technical feasibility and suitability to meet specifications
- strategies to evaluate designs to improve techniques
- principles of typography and motion techniques required for the application to title design
- organisational procedures for recording and storing graphic images
- copyright requirements for importing items into screen titles
- work health and safety requirements relating to working with screens and keyboards.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- production documentation
- interaction with others required to demonstrate the performance evidence
- assets to be included in screen title production
- software to create titles.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
