Assessment Requirements for CUABRD303 Prepare video material for television transmission

Release: 1

Assessment Requirements for CUABRD303 Prepare video material for television transmission

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- prepare source materials for conversion to digital formats required for transmission
- set up and use equipment to convert materials to required formats within deadlines
- edit materials for broadcast as directed by others
- make copies of materials in required format for distribution or storing in-house
- follow procedures for archiving materials.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- outline roles and responsibilities of production personnel in relation to preparing video material for transmission
- identify sources of advice, information and technical support relating to preparation of video material for television transmission
- explain key technical factors to be considered when meeting quality and technical requirements for converting video material to digital formats.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- a television production facility
- materials to be prepared for television broadcast
- interaction with others.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
