Assessment Requirements for CUACOS503 Create theatrical millinery

Release: 2

Assessment Requirements for CUACOS503 Create theatrical millinery

Modification History

Release	Comments
Release 2	This version released with CUA Creative Arts and Culture Training Package version 2.0. Updated assessment conditions section. Updated modification history section to reflect changed name of training package.
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 1.0.

Performance Evidence

Evidence of the ability to:

- use a range of techniques and materials to create specialised theatrical millinery items for at least one production
- follow safety procedures when using equipment and materials to make millinery
- work collaboratively.

Note: If a specific volume or frequency is not stated, then evidence must be provided for each of the above points at least once.

Knowledge Evidence

To complete the unit requirements the individual must:

- describe the role of millinery in the overall costume design and production process
- describe the range and type of specialised headwear that may be required in period and fantasy productions
- describe construction techniques used to make specialised millinery items
- provide examples of materials and fabrics used to create different effects and structures for specialised millinery items
- describe the link between performance requirements and the selection of construction processes and materials.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to costume and millinery specifications, materials and production schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
