Assessment Requirements for CUADES202

Evaluate the nature of design in a specific industry context

Release: 1

Assessment Requirements for CUADES202 Evaluate the nature of design in a specific industry context

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- evaluate the nature of design in at least one industry context.

In the course of the above, the candidate must:

- identify design concepts from different information sources on design and identify how they can be applied to own work.
- identify one or more opportunities to maintain currency of industry trends and design skills
- identify and share information on emerging design trends with colleagues.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- consumer/end-user expectations of design in the chosen industry context
- current and emerging technologies and their effects on design in the chosen industry context
- influential designers, both past and present, in the chosen industry context
- major design trends in chosen industry context
- role of design in chosen industry context.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- office equipment and resources

- sources of information on design in a specific industry context.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
