Assessment Requirements for CUADES522 Realise production designs

Release: 1

Assessment Requirements for CUADES522 Realise production designs

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- realise designs for at least one production and one event according to different production design briefs.

In the course of the above, the candidate must:

- plan and supervise the implementation of production designs in selected area of expertise
- develop and document work plan to meet the requirements of production design briefs that include:
 - scope and objectives
 - budget
 - schedules
 - technical feasibility
 - environmental considerations
 - social considerations
 - legislative and regulatory considerations
- apply effective problem-solving techniques to the realisation of production designs
- work collaboratively with others in realising production designs.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- issues and challenges that typically arise when realising production designs in selected area of expertise, and suggest ways of addressing them
- main features of different materials used in selected area of expertise
- costing, budgeting and estimating techniques

- work health and safety and legislative and regulatory requirements that relate to the process of realising production designs
- process for the safe handling of hazardous materials in selected area of expertise
- effects of lighting on materials used to realise production designs and procedures for adapting techniques to take account of them.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- venues with the full range of resources required to manage the realisation of production designs.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
