Assessment Requirements for CUADIG305 Produce digital images

Release: 2

Assessment Requirements for CUADIG305 Produce digital images

Modification History

Release	Comments
Release 2	This version first released with CUA Creative Arts and Culture Training Package version 3.0. Minor updates to Performance Criteria
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- plan and produce technically proficient digital images
- discuss the combination of ideas and techniques in own digital image work
- evaluate own work progress for improvement in creative processes and products.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- describe historical and theoretical digital imaging practices relevant to the specific production of digital images
- describe capabilities of a range of materials, tools and equipment used in digital imaging
- outline the elements and principles of design and their application to the digital imaging
- explain how common techniques used in producing digital images can be adapted to achieve creative effects
- outline basic intellectual property considerations in producing creative works
- describe procedures for working safely with digital imaging materials, tools and equipment.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- tools, equipment and materials required for producing digital images
- relevant information sources.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
