Assessment Requirements for CUAPHI502 Research and apply photo imaging trends

Release: 1

Assessment Requirements for CUAPHI502 Research and apply photo imaging trends

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package version 2.0.

Performance Evidence

Evidence of the ability to:

- research and document trends and new technologies in photo imaging products and processes
- analyse own creative and business practice and the impact of incorporating new trends and technologies
- produce and implement a plan to take advantage of creative and commercial opportunities
- evaluate implementation and develop strategies to keep up to date with, and respond to, new trends and technologies.

Note: If a specific volume or frequency is not stated, then evidence must be provided at least once.

Knowledge Evidence

To complete the unit requirements safely and effectively, the individual must:

- identify sources of information for trends and emerging technologies impacting on the photo imaging industry
- outline entrepreneurial attitudes and strategies to commercialise trends in photo imaging
- describe factors to be considered when evaluating commercial risk and commercial viability of opportunities.

Assessment Conditions

Assessment must be conducted in a safe environment where evidence gathered demonstrates consistent performance of typical activities experienced in creative arts industry environments. The assessment environment must include access to:

- sources of information on trends and emerging technologies within the photo imaging industry.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational educational and training legislation, frameworks and/or standards.
