Assessment Requirements for CUAPPM513 Incorporate creative and technical needs into management processes

Release: 1

Assessment Requirements for CUAPPM513 Incorporate creative and technical needs into management processes

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- incorporate creative and technical aspects of production into the planning and management of at least one event or production.

In the course of the above, the candidate must:

- interact effectively with a range of creative and technical personnel involved in productions.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- current industry trends in relation to creative and technical production
- aspects of live productions:
 - roles and responsibilities of key technical and creative personnel
 - technical terminology
 - process of designing, developing and realising productions
 - relationship between different production areas
 - typical challenges and issues that arise in the creative and technical side of productions
- production and event management processes and techniques and how they can be adapted to foster an approach to production management that integrates creative and technical considerations.

Assessment Conditions

Skills in this unit must be demonstrated in a live production environment where the conditions are typical of those in a working environment in this industry.

This includes access to productions or events and others to collaborate with.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards. Where personal safety is a limiting factor, assessment may occur in a simulated work environment typical of those in a working environment in this industry.
