Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- create mixed-media props to meet production requirements for at least two different productions.

In the course of the above, the candidate must:

- establish props requirements, including construction techniques to be used
- follow safety procedures throughout construction
- maintain labelling and coding of prop items
- work collaboratively with others throughout construction.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- issues and challenges that arise when making props using mixed media
- ways to address challenges and issues in the construction phases of props
- properties, applications and durability of different types of materials that can be used for prop construction and how they can be combined
- safety and environmental issues associated with handling hazardous materials
- behaviour of various materials, finishes, painting techniques and colours under lighting
- properties and characteristics of a variety of materials before and after art finishing.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- mixed media for prop construction
- prop specifications
- production schedules.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
