Assessment Requirements for CUAPRP511 Design props

Release: 1

Assessment Requirements for CUAPRP511 Design props

Modification History

Release	Comments
Release 1	This version first released with CUA Creative Arts and Culture Training Package Version 5.0.

Performance Evidence

The candidate must demonstrate the ability to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including evidence of the ability to:

- design props for at least two different productions.

In the course of the above, the candidate must:

- undertake research to inform the prop design process and creative response to design briefs
- satisfy production requirements and technical, budget and time constraints
- work collaboratively with others during the design process.

Knowledge Evidence

The candidate must be able to demonstrate knowledge to complete the tasks outlined in the elements, performance criteria and foundation skills of this unit, including knowledge of:

- copyright, moral rights and intellectual property legislation applicable to prop design
- industry trends and developments relevant to prop design
- ethical standards and protocols that designers in the cultural industries must observe when designing props
- principles and techniques of design and script breakdown and how they apply when designing props
- relationship between production scheduling and the design process
- role of prop design within the overall artistic direction of productions
- relationship between prop designers and other production personnel.

Assessment Conditions

Skills in this unit must be demonstrated in a workplace or simulated environment where the conditions are typical of those in a working environment in this industry.

This includes access to:

- production scripts or performance outlines on which prop designs can be based.

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
